DEEPTHINK S8

Perfectly designed for Mavic 3E/3T, Deepthink S8 focuses on revolutionizing night operation in public safety, firefighting, search&rescue, as well as aerial bridge inspection.

As a night vision gimbal camera, empowered with Deepthink proprietary technology AI ISP, S8 could capture images with crisp-color and full details under super low-light conditions.

AI-ISP Powered

AI Denoise/AI Defog/AI HDR

True-Color Image

0.0008Lux

Image Sensor

1/1.8"

Resolution

2K

Maximum Detectable Distance

1000m

Dimensions

93.3mm X 94.2mm X 71.2mm

Key Features

• World-Leading Night Vision Performance

Integrated with 1/1.8" sensor and world-leading proprietary AI ISP algorithm, Deepthink S8 delivers true color camera shooting under ultra-low light, nearly 0.00008 lux.

• Keep Long Endurance

As a payload, Deepthink S8 has an energy consumption of around 3w which still supports DJI Mavic 3E/3T max flight time.

• Steady More Than Usual

Smooth and stable flight is ensured by a 3-axis tilt angle stabilization range $\leq \pm 0.005^\circ$

• Easy To Connect

Deepthink S8 could be mounted to DJI Mavic3E/3T via e-port. It is easy to connect with DJI remote controller through PSDK.
