# G2L Tethered Lighting Drone

**Product Features**

1、 Emergency Lighting

2、 Wired Remote Control (No Need For Professional Flyer)

3、 One Person Control

**Key Performance Indicators**

1、 LED Lighting Power: 150/200 Watt

2、 Illumination flux: 20K lumens

3、 Light Range: 2000-3000㎡

4、 Cable Length: 12 meters

5、 Wind Resistance Level: 4 class

6、 Rainproof Rating: 10 class

7、 Operating Temperature: -20℃～+60℃

8、 Support high altitude operations of 4500m

9、 Lithium Battery  (4H)

# G3L Tethered Lighting Drone

**Product Features**

1、 Emergency Lighting

2、 Wired Remote Control (No Need For Professional Flyer)

3、 One Person Control

**Key Performance Indicators**

1、 LED Lighting Power: 520 Watt

2、 Illumination flux: 80K lumens

3、 Light Range: 2000-3000㎡

4、 Cable Length: 18 meters

5、 Wind Resistance Level: 5 class

6、 Rainproof Rating: 10 class

7、 Operating Temperature: -20℃～+60℃

8、 Support high altitude operations of 4500m

9、 Working Time ≥240H

# Plenilune G5L Tethered Lighting Drone

**Product Features**

1、Emergency Lighting

2、Wired Remote Control (No Need For Professional Flyer)

3、One Person Control

**Key Performance Indicators**

1、LED Lighting Power 520 Watt

2、Illumination flux: 80K lumens

3、Light Range: 3000-5000㎡

4、Cable Length: 30 meters

5、Wind Resistance Level: 6 class

6、Rainproof Rating: 10 class

7、Operating Temperature: -20℃~+60℃

8、Support high altitude operations of 4500m

9、Working Time ≥240H

# G6L Tethered Lighting Drone

**Product Features**

1、Emergency Lighting

2、Remote Control/Touch Screen Control

3、No Need For Professional Flyer

**Key Performance Indicators**

1、LED Lighting Power: 600 Watt

2、Illumination flux: 200K lumens

3、Light Range: 10000㎡

4、Cable Length: 50 meters

5、RTK technology to achieve centimeter-level positioning

6、Wind Resistance Level: 6 class

7、Rainproof Rating: 10 class

8、Operating Temperature: -20℃~+60℃

9、Support high altitude operations of 4500m

10、Working Time ≥240H

# G6LV Tethered Lighting & Video Drone

**Product Features**

1、Emergency Lighting/HD Video Surveillance+Live Remote Transmission

2、Remote Control/Touch Screen Control

3、No Need For Professional Flyer

**Key Performance Indicators**

1、LED Lighting Power: 600 Watt

2、Illumination flux: 200K lumens

3、Light Range: 10000㎡

4、Cable Length: 50 meters

5、With HD Camera (Including PTZ)，4K HD Video Surveillance+1080P

6、RTK technology to achieve centimeter-level positioning

7、Operating temperature: -20℃~+60℃

8、Support high altitude operations of 4500m

9、Working Time ≥240H

# GBI2020-I Tethered Lighting, Video Drone System

**Product Features**

1、Emergency Lighting and high-definition video monitoring with real-time transmission

2、Wireless remote control operation, support one-click take-off and landing

**Key Performance Indicators**

1、Lighting power: 600 Watt, equipped with high-definition camera

2、Illumination flux: 80K lumens

3、Light Range: 8000㎡

4、Cable Length: 50 meters

5、Operating temperature: -20°C~+60°C

6、Wind Resistance Level: 7 class

7、Rainproof Rating: 10 class

8、Support high altitude operations of 4500m

9、Working Time ≥240H

# G7 Portable Tethered Lighting Video Drone System

**Product Features**

1、Emergency Lighting and high-definition video monitoring with real-time transmission
2、Wireless screen remote control operation, support one-click take-off and landing
3、Equipped with wired remote control

**Key Performance Indicators**

1、Lighting power: 600 Watt, equipped with high-definition camera
2、Illumination flux: 80K lumens
3、Light Range: 8000㎡
4、Cable Length: 50 meters
5、Operating temperature: -20°C~+60°C, Supports operations at 4500m Altitude
6、Wind Resistance Level: 7 class
7、Rainproof Rating: 10 class
8、Support high altitude operations of 4500m
9、Working Time ≥240H
10、Protection Rating: IP67
